

# DERMOFIT

The real key to healthy skin, lustrous hair, and strong nails is building them from the inside out using key nutrients.

Our Dermofit is designed to help to support healthy hair, skin and nails by providing a wide range of essential nutrients including vitamins, minerals, and amino acids, as well as vital anti-oxidants.

The body incorporates these nutrients into a series of complex biochemical and physiological processes necessary for building healthy hair, skin and nails. Despite these parts of the body being visible, their strength and quality is built from the inside out.

Ideal for animals Natural Wellness Hair, Skin & Nails works to nourish and protect hair, skin and nails from the inside for enhanced growth and strength and healthy appearance.

## Directions

As a dietary supplement, take 1 tablet daily for cats and dogs less than 10 kg take 2 tablets daily for cats and dogs 10-25 kg, take 3-4 tablets daily for dogs more than 25 kg **BEST LOOKING PET HAIR:** We love how pets come in so many different shapes and sizes. There are short and long-haired pups, some with curls, and some that shed so much, you could spin it into yarn and knit a sweater! But to keep your pets hair and skin healthy you need to make sure that your pet is provided with the best supplement for this specifically, like our Hair And Coat Support.

## HEALTHY NUTRIENTS FOR PETS HAIR:

A well-balanced diet is imperative for your pet to live there longest,

healthiest life, and the evidence is in your pet's skin and coat.

Good-quality cat supplement (like ours) contains the necessary nutrients to keep your dog or cat at their best.

#### **VITAMINS FOR PETS COAT AND SKIN:**

Vitamins for pets is the first key to a beautiful and healthy looking coat. Vitamins do so much more than provide your pet an amazing health benefits. Vitamin A lubricates the root of each hair to promote hair growth. Vitamin E increases oxygen in the blood supply, and promotes circulation for healthier skin beneath the hair.

#### **ITCH RELIEF FOR PETS WITH QUERCETIN:**

Quercetin is a flavonoid commonly found in fruits and vegetables that has anti-oxidant, and anti-inflammatory properties.

Quercetin works well for allergic symptoms because it reduces inflammation. Quercetin also helps to inhibit cellular activity responsible for inflammation which means itching is reduced.

#### **FULL COAT SUPPORT COMPLEX FOR PETS:**

Pets are fun and furry to play around with and love. But just as in humans, in pets, how supple, smooth, and shiny the skin and hair (or fur) appears is an externally visible reflection of overall health.

This hair and coat supplement can provide your pet the best look and feel of their skin, hair, and coat.

#### **VITAMIN B COMPLEX FOR PETS:**

B vitamins are needed to support a number of bodily functions, including those that govern hair growth for pets.

Vitamin B complex provides a balanced portion of several B vitamins that work together. These include **B1, B2, B6, B12** which all work together to give your pet the best health benefits.

#### **FULL COAT SUPPORT COMPLEX FOR PETS:**

Pets are fun and furry to play around with and love. But just as in humans, in pets, how supple, smooth, and shiny the skin and hair (or fur) appears is an externally visible reflection of overall health.

This hair and coat supplement can provide your pet the best look and feel of their skin, hair, and coat.

#### **METHIONINE FOR PETS SKIN AND HAIR CONDITIONS:**

You most likely have never heard of Methionine before. Methionine is part of body proteins and is important for skin and coat condition, eye health, heart health and more. Our supplement was formulated with this ingredient to help your pets itch go away and provide the best looking coat.
