

Pain-Off 24

Millions of pets suffer from acute or chronic pain. While acute pain is a normal sensation triggered in the nervous system to alert your pet of possible injury and the need to take it easy, chronic pain is different, chronic pain persists. Pain signals keep firing in the nervous system for weeks, months, even years.

Pet Pain-Off 24 provides all vet approved anti-inflammatory analgesic pain relief that is non-toxic, non-narcotic, non-steroidal and contains no aspirin or acetaminophen. Safe to use on pets, it treats conditions that cause chronic pain in animals.

Pet Pain-Off 24 is 100% Safe to treat your pets pain. Pet Pain-Off 24 works by targeting receptors on nerve cells. These receptors are found in nerves outside the central nervous system (brain and spinal cord) and they are also found on cells of the

immune system. Specialized proteins in Pet Pain-Off 24 block the action of acetylcholine, a major stimulating neurotransmitter in the nervous system and activator of the inflammatory pathways.

As a result, the pain and inflammation pathways are temporarily shut off. In clinical studies, the pain relieving ingredients in Pet Pain-Off 24 provided prolonged chronic muscle and joint relief for at least 24 hours.

Today, Turmeric is successfully being used for treating various forms of pain, autoimmune and neurological disorders. The Nutra Pharma subsidiary, ReceptoPharm, and other researchers have definitively proven that extracts from cobra venom contain same constituents that control pain and inflammation in animals.

Ingredients :

Each Serving Provides 300 mg of Turmeric Curcumin.

Ingredients: Turmeric Root Extract (std. to 95% Curcumin) (Curcuma longa L.), 300 mg.

Other Ingredients:

Microcrystalline cellulose, Dicalcium phosphate, Liver (Dessicated beef, undefatted), Stearic acid, Bacon Flavor, Croscarmellose sodium, Magnesium stearate, and Silicon dioxide. Recommended
