

# AGROVIT E-SE

## Organic Vitamins Supplement

Vitamin E and selenium are essential nutrients for the growth and overall well-being of poultry and livestock. Vitamin E is a powerful antioxidant that helps to protect cells from damage, while selenium plays a crucial role in the immune system and muscle development.

By combining these two essential nutrients, Agrofit E-se supplement provides a highly effective solution for addressing nutritional deficiencies and promoting the health of animals.

### Purpose Of Usage:

- Combating free radicals in birds and enhance disease resistance
- Improvement of chick viability
- Helping to maintain and sustain the integrity of the structural tissue
- Essential for growth and reproduction
- Needed for the maintenance of the skeleton, heart and smooth muscles
- Preventing inflammation
- Improving the FCR
