

AMINOFIT

Amino Acids Liquid Mixture

Amino Acids are the building blocks of proteins. They are needed for the production of proteins, hormones, neurotransmitters, nucleic acids and peptides. Amino acids are likewise needed for normal biochemical processes and overall functioning, differentiation and organization of cells, tissues and organ-systems.

Aminofit is a collection of highly absorbent amino acids.

Purpose of Usage:

- Helps restore impaired metabolism functions
- Increases the quality of the eggshell, fertility and hatchability
- Supporting the liver system
- Helps to strengthen the immune system
- Increasing feed efficiency of poultry at the maximum rate
- Helps strengthen the skeletal system
- Supports resistance against diseases

Main Ingredients:

Methionine, Lysine, Cysteine, Threonine, Aspartic Acid, Alanine, Arginine, Leucine, Valine, Isoleucine, Histidine, Phenylalanine, Proline, Serine, Tyrosine, Glycine and Glutamic Acid

Dosage and Administration:

It is used by mixing 250 to 500 ml per 1000 lit of drinking water.

Packaging:

Aminofit is conveniently packaged in 1 lit and 5 lit cans, ensuring convenient handling and storage.

Storage Condition:

The product must be stored protected from light and heat, dark between 5°C and 25°C.

Target Animals:

Broiler, Layer, Turkey, Ostrich, Cattle, Dairy, Sheep, Horse
