

# Glycofix

GlycoFix is an exceptional joint support supplement crafted for the well-being of your cherished feline and canine companions. This advanced formula blends key ingredients such as Glucosamine Sulphate, Chondroitin Sulphate, to elevate your pet's muscle, bone, and joint health.

Understanding Pet Joint Health and Benefits of Glucosamine and Chondroitin:

Maintaining optimal joint health is crucial for the overall well-being of cats and dogs. It directly influences their mobility, comfort, and quality of life.

Glucosamine is a natural compound found in healthy cartilage.

It plays a vital role in building and repairing cartilage tissues in joints.

Glucosamine helps reduce inflammation and promotes joint lubrication, supporting smoother movement.

Chondroitin is a key component of cartilage and is often paired with glucosamine in joint supplements.

It helps maintain the elasticity and integrity of cartilage.

Chondroitin has anti-inflammatory properties and supports the overall health of joints.

GlycoFix combines the benefits of Glucosamine and Chondroitin with other essential ingredients, providing a holistic approach to joint support. Elevate your pet's health with GlycoFix, the pinnacle of advanced joint care for your beloved companions.

Key Benefits:

## 1. Increased Mobility:

GlycoFix is formulated to enhance mobility by providing comprehensive support to muscle, bone, and joint health. It addresses issues related to occasional stiffness associated with aging, promoting overall agility.

## 2. Cartilage, Ligament, and Tendon Health:

This advanced joint supplement contains Glucosamine and Chondroitin, integral components that maintain the health of cartilage, ligaments, and tendons. These ingredients offer anti-inflammatory effects, inhibit destruction, and stimulate the production of crucial cartilage components.

## **Ingredients:**

Glucosamine Sulphate, Chondroitin Sulphate, Methyl Sulphonyl Methane, Sodium Hyaluronate, Vitamin C, Microcrystalline Cellulose, Magnesium Stearate, Processed Chicken Protein

## **Dosage and Administration:**

0-10 kg: 1 tablet

10-20 kg: 2 tablets

20-30 kg: 3 tablets

30 kg and above: 4 tablets

Administer once a day according to your pet's weight. The tablets can be given directly orally or mixed with their food.

## **Storage Recommendations:**

GlycoFix should be stored securely in a well-closed, dry, and clean area at room temperature. Shield the product from direct sunlight and moisture to maintain its efficacy.

**Keep out of reach of children.**
