

# Hepatofit

Hepatofit - Advanced Liver Health Support for Cats and Dogs

The liver is a vital organ in the overall well-being of our feline and canine companions. It performs a multitude of functions essential for maintaining their health and vitality. From filtering blood, detoxifying harmful substances, and producing essential proteins to regulating metabolism and aiding in digestion, the liver plays a pivotal role in supporting the overall balance of the body.

**Detoxification:** The liver filters and neutralizes toxins, ensuring the blood circulating throughout the body is clean and free from harmful substances.

**Metabolism Regulation:** It plays a crucial role in regulating various metabolic processes, including the conversion of nutrients into energy.

**Protein Synthesis:** The liver is responsible for producing essential proteins, such as blood clotting factors and albumin, necessary for maintaining bodily functions.

**Digestive Support:** Bile produced by the liver aids in the digestion and

absorption of fats in the digestive system.

## Ingredients:

L-Lysine HCl, Milk Thistle Extract, Artichoke Extract, Turmeric Extract, Echinacae Extract, Microcrystalline Cellulose, Magnesium Stearate, Processed Chicken Protein

L-Lysine is an essential amino acid that supports overall health. In Hepatofit, it contributes to the antioxidant properties of the formula, assisting in the protection of cellular components.

Milk Thistle is rich in silymarin, a powerful antioxidant known for its hepatoprotective properties. It supports liver health by shielding it from oxidative stress and promoting the regeneration of liver cells.

Artichoke extract is included for its potential in supporting liver function. It aids in the digestion of fats and helps maintain a healthy balance of bile production.

Turmeric, with its active compound curcumin, is recognized for its anti-inflammatory and antioxidant properties. It contributes to the overall liver protection provided by Hepatofit.

Echinacea adds immune support to the formula, ensuring the liver is supported not only in detoxification but also in maintaining overall resilience.

Hepatofit is designed to support and protect the liver health of your cats and dogs. By combining the benefits of antioxidants, amino acids, and extracts, this advanced formula contributes to the overall well-being of your pets.

**Dosage and Administration:**

0-10 kg: 1 tablet

10-20 kg: 2 tablets

20-30 kg: 3 tablets

30 kg and above: 4 tablets

Administer once a day according to your pet's weight. The tablets can be given directly orally or mixed with their feed.

**Storage Recommendations:**

Hepatofit should be stored well closed in a dry, clean area at room temperature. Protect the product from direct sunlight and moisture to ensure its efficacy.

**Keep out of reach of children.**
