

Relaxifit

Calming and Relaxing Tablets for Cats and Dogs

Stress poses a significant threat to the overall well-being of our beloved pets. Whether triggered by a change in environment, loud noises, mating visits, a new home, unfamiliar people, interactions with new pets, or travel, stress can adversely affect their mental health. Recognizing the danger stress poses to our furry companions, Relaxifit presents a solution to alleviate the negative impacts of stress on pets.

Relaxifit is a specially formulated product designed to eliminate stress and promote calmness and relaxation in cats and dogs. This innovative solution includes a blend of carefully selected ingredients known for their calming effects, addressing a wide variety of stress-inducing situations.

Ingredients: L-tryptophan, Camellia Sinensis Extract, Valerian Root Extract, Chamomile Extract, Rosemary Extract, Cholecalciferol, Microcrystalline Cellulose, Magnesium Stearate, Processed Chicken Protein

Key Ingredients and Their Effects:

L-Tryptophan : An essential amino acid that supports the production of serotonin, a neurotransmitter associated with feelings of well-being and relaxation.

Camellia Sinensis Extract: Known for its soothing properties, Camellia Sinensis Extract, commonly found in green tea, contributes to relaxation and stress reduction.

Valerian Root Extract: Valerian has been traditionally used to alleviate anxiety and nervousness, promoting relaxation in pets.

Chamomile Extract:Known for its calming properties, chamomile extract helps soothe the nervous system and reduce anxiety in pets.

Rosemary Extract: With antioxidant properties, rosemary extract contributes to overall well-being and supports a calm demeanor.

Cholecalciferol: A form of vitamin D that plays a role in maintaining neurological health and may contribute to mood regulation.

By combining these carefully selected ingredients, Relaxifit provides a holistic approach to stress relief. This ensures that your pets experience a sense of tranquility in various challenging situations.

Dosage and Administration:

0-10 kg: 1 tablet

10-20 kg: 2 tablets

20-30 kg: 3 tablets

30 kg and above: 4 tablets

Administer Relaxifit once a day according to your pet's weight, as outlined in the dosage table. The tablets can be given directly orally or conveniently mixed with your pet's food, ensuring a stress-free and seamless administration.

Storage Conditions:

To preserve the efficacy of Relaxifit, store the product in a well-closed container, in a dry, clean area at room temperature. Shield it from direct sunlight and moisture to maintain its potency and effectiveness over time.

Keep out of reach of children.
