

# TOXIFIT PLUS

## Toxin Binder and Remover

Toxofit Plus is a solution to manage the risk of mycotoxins in poultry and livestock. It reduces mycotoxin deleterious effects.

Toxofit Plus adsorbs Aflatoxin (B1) and helps to maintain performances in case of multi-contamination by mycotoxins.

#### Purpose of Usage:

- Supports detoxification processes
- Helps to stimulate immunity in affected animal\
- Gives a high exchange capacity and better mycotoxins adsorption
- Controls the excess moisture in feed

#### Main Ingredients:

Bentonite, Vegetable Coal and Yeast Extract

#### Dosage and Administration:

It is used by adding 500 g to 1 kg per ton of animal feed.

#### Packaging:

Toxofit is conveniently packaged in 10 kg bucket and 25 kg bag, ensuring convenient handling and storage.

#### Storage Condition:

The product must be stored protected from light and heat, dark between 5°C and 25°C.

#### Target Animals:

Broiler, Layer, Turkey, Ostrich, Cattle, Dairy, Sheep, Horse
