

Urinary Essentials

Comprehensive Urinary System Support:

Urinary Essentials for Pets is a meticulously crafted supplement designed to provide robust support for the urinary system, encompassing kidney health, liver function, homocysteine balance, stress management, immunological and antioxidant defense system activities, and renal circulation. This supplement serves as a reliable ally in promoting overall urinary wellness in your cherished pets.

Multivitamin for Normal Kidney Function:

Beyond its comprehensive urinary system support, Urinary Essentials functions as a specialized multivitamin tailored to maintain normal kidney function. The carefully selected blend of ingredients works synergistically to address various facets crucial for your pet's health.

Key Ingredients and Their Significance:

Vitamin C: Promotes immune strength and acts as a potent antioxidant.

Vitamin A: Supports overall immune health.

Vitamin K3: Essential for normal blood clotting and kidney function.

Cranberry Extract: Renowned for its urinary health benefits, aiding in the prevention of urinary tract issues.

DL-Methionine: Crucial for maintaining a healthy urinary tract.

Ingredients:

Vitamin C, Vitamin A, Vitamin K3, Cranberry Extract, DL-Methionine, Microcrystalline Cellulose, Magnesium Starate, Processed Chicken Protein

Dosage and Administration:

Administer Urinary Essentials once a day according to the weight of your pet, following the recommended dosage:

0-10 kg: 1 tablet

10-20 kg: 2 tablets

20-30 kg: 3 tablets

30 kg and above: 4 tablets

Urinary Essentials can be given directly orally or conveniently mixed with your pet's food, ensuring ease of administration.

Storage Conditions:

To preserve the efficacy of Urinary Essentials, store the product in a well-closed container in a dry, clean area at room temperature. Protect it from direct sunlight and moisture.

Keep out of reach of children.
