

## CAT and DOG LIVER HEALTH SUPPORT

### HEPATOFIT

It helps to improve liver function. Supports the health of cats and dogs.

The liver is a vital organ responsible for various essential functions in both humans and animals. However, just like humans, animals, including dogs and cats, are susceptible to liver diseases. These diseases can be caused by various factors, such as poisons, toxins, diseases, parasites, and aging. If left untreated, these liver problems can pose significant risks to the overall health and well-being of our beloved pets. Fortunately, there are preventative measures and treatments available, such as Agrofite Hepatofit tasty tablets, that can help protect and treat these liver problems. It is given once a day according to the weight of your dog and cat.
